## Summary

Hi, We are in the process of building the Berkshire Hathaway of India.

This venture has potential to become a Unicorn in 5 - 6 years.  
(a different kind of UNICORN, meaning a money-making Unicorn)

Currently we have a core team of around 25 diverse people from across India and other countries.

It is our strategy to develop and grow this along the lines of the Warren Buffett company.

If the idea interests you, we can have a discussion :-)

Cheers!!
